The Meter Package must be paid for when a Land Use Permit is issued

A plumbing permit from Livingston County Building Dept. is required for the installation of water meters. Their phone number is 517-546-3240 for additional information.

You, the applicant, are required to contact the MHOG Utility Department at **(810) 227-5225** to schedule a meter installation appointment. You must call 1 week prior to requested meter installation date. If you purchase an irrigation package you **must have** the PVB (pressure vacuum breaker) installed and certified by a licensed master plumber.

Meter installation requirements include the curb stop being clearly marked and at "finish grade".

If we are requested to set the meter and site conditions prevent the meter from being set, a \$25.00 repeat trip fee will be charged for each return visit.

Your signature verifies that you received the meter horn.

Applicant has read and agrees to the above instructions:

Horn Picked Up: Yes No

Printed Name: _____

Date: _____

Applicant's Signature: _____
